

# Engineering Preparation Programme 2021

Engineering Preparation Programme  
Imperial College London

January – February 2021

## What is Engineering all about?

How do scientists engineer the world?  
What affects will engineers have on the future?

Considering engineering opens up a diversity of career choices. Chemical, electrical and structural engineering are aspects of the industry that are logical to envisage, and Artificial Intelligence, space and exploration and automation are all hot topics we see in the news all the time. However, there are myriad niche areas: bio engineering, medical technology, nanorobotics, artificial intelligence, 3d printing, the future of Isaac Asminov's 'Positronic Man", and space habitats to name a few. We will explore some of these topics along with the less well-known

aspects of human and operations engineering. The future of societies will depend on scientists and engineers working together, and in this course, we will emphasize space settlement design to explore future engineering careers within the industry. Space settlement requires advanced engineering solutions for a future society to survive and prosper and allows those participating in this course to extend their scientific knowledge and see how relevant their current studies are to their future career trajectories.

# Engineering Preparation Programme

This course asks two basic questions of you...

First should you consider engineering and second what areas of engineering would most interest you.

You can answer all your engineering questions at one of the few top-rated large universities in the world that focuses on Technology, Science, Management and Medicine. Listen and talk to professionals from academia and industry from not only Imperial College London, but also other top UK Universities. Universities, which are always rated in the top ten in the world rankings.

Imperial College London is home to the Space Science Engineering Foundation, which runs space settlement design competitions sending students to NASA's Kennedy Space Center. The staff are experts in all area of space settlements, engineering and education. You will participate in a unique industry simulation, designing a space settlement on an asteroid.

While you are here to answer your questions about your future relationship with engineers you will be in the centre of London, next to Hyde Park, Harrods, the Natural History and Science Museums and only a short distance to Bond Street, Buckingham Palace and the Thames River front.

Start Times							
	Wednesday 29 <sup>th</sup> January	Thursday 30 <sup>th</sup> January	Friday 31 <sup>st</sup> January	Saturday 1 <sup>st</sup> February	Sunday 2 <sup>nd</sup> February		
09:00	<b>09:00</b> Dr Jun Lee Computer Design Tools	<b>09:00</b> <b>FIELD TRIP TO ROLLS ROYCE</b>	<b>09:00</b> Shayne Beegadhur Rocket Engineering	<b>09:00</b> Introduction to Space Design Competition	<b>09:00</b> Red Team		
09:30				<b>09:30</b>			
10:00	<b>10:00</b>		<b>10:00</b>	Structural Engineering	<b>10:00</b> Continue Designs		
10:15	Sophia Roberts Philosophy of Engineers and Society		Brian Kong Presentation Skills and Teamwork Workshop	<b>10:15</b> Operations Engineering			
	<b>BREAK</b>						
11:00	<b>11:00</b> Professor Mark Sefton	<b>FIELD TRIP TO ROLLS ROYCE</b>	<b>11:00</b> Neelesh Ravichandran		<b>11:00</b> Continue Designs  12:00 Turn in Design Powerpoint on USK		
11:30	Space and Planetary Bodies		Artificial Intelligence in Engineering	<b>11:30</b> Automation Engineering			
12:00	<b>LUNCH</b>						
13:00	<b>13:00</b> Dr Aleksandra Gentry-Maharaj Medical Engineering	<b>FIELD TRIP TO ROLLS ROYCE</b>	<b>13:00</b> Jian Heseri Energy Engineering	<b>13:00</b> Human Engineering	<b>13:00</b> First Company Presentation		
13:30							
13:40						<b>13:40</b>	Second Company Presentation
13:45						<b>13:45</b> Managing an Engineering Company	
14:00	<b>14:00</b> Dr Richard Ghail	<b>UNIVERSITY LOUGHBOROUGH TOUR</b>	<b>14:00</b> Dr Elizabeth Day	<b>14:00</b> Elect Company Officers	<b>14:00</b> Judges Deliberate		
14:30	What Civil Engineers Do?		Geophysics and Building on Unstable Surfaces	<b>14:30</b> Begin Designs			
	<b>BREAK</b>						
15:00	<b>15:00</b> Victoria Murphy Imperial and ESE Admissions	<b>UNIVERSITY LOUGHBOROUGH TOUR</b>	<b>15:00</b> Dr Elizabeth Day Admissions				
15:30	<b>15:30</b> Dr Randall S Perry UK G5 and US Admissions		<b>15:30</b> Alison Ahearn Industry Request for Proposals				
17:00	<b>FINISH</b>						
	<b>16:00</b> Design Project Presentations and Feedback  AWARDS AND CERTIFICATES
